Considerable improvement in earnings after nine months

Cologne, November 5, 2012 – Europe-wide financial services provider OVB Holding AG (ISIN: DE0006286560) benefited from the Group-wide measures aimed at improving earnings introduced in 2012. With these measures, OVB wishes to further expand its market position to become the leading sales system in Europe. In the first nine months, EBIT rose sharply by 79.3% to EUR7.2 million (EUR4.0 million).

As well as the Group-wide process optimisations, the considerable earnings improvement in the Southern and Western Europe segment was particularly key to the earnings rise.

In the reporting period, OVB Group sales of EUR155.6 million were nearly at the level of the previous year (EUR162.0 million).
