## Dear shareholders. Ladies and gentlemen,

OVB managed to continue its successful business development and to achieve highly dynamic growth in the first half-year 2021. The demand for high-quality allfinanz advisory service keeps growing, the accelerated digitization of our business processes has also further increased the efficiency of our sales activities. OVB Group's brokerage income came to a total of Euro 159.2 million in the first half-year 2021. This equals 21.8 per cent growth compared to the prior-year amount of Euro 130.7 million. All regional segments contributed to this dynamic business development. In the strongest segment, Central and Eastern Europe, brokerage income gained 22.4 per cent to Euro 76.1 million with all national markets reporting growth. Brokerage income generated in the Germany segment was up 4.4 per cent to Euro 31.7 million (previous year: Euro 30.4 million). The most dynamic growth was achieved in the segment Southern and Western Europe with a 34.6 per cent increase to Euro 51.4 million. The number of our clients supported in 15 European countries increased by 3.7 per cent to 4.05 million clients. The number of full-time financial agents was also expanded successfully, by 7.7 per cent to 5,465.

The COVID-19 pandemic has a negative impact on people's sense of security, according to an international survey published recently. This involves work, training, health, house and home, finances as well as one's relationships with family and friends. Awareness of the necessity of private provision and risk protection has grown considerably.

The excellent business performance over the first half-year 2021 is also apparent in earnings: From January through June OVB generated an operating result (EBIT) of Euro 12.4 million, 66.1 per cent above the prior-year amount of comparison. The Group's EBIT margin expanded from 5.7 per cent to 7.8 per cent. Consolidated net income even grew 74.1 per cent, to Euro 9.6 million. It will prove a deciding factor for the development of the second half-year which course the persistent COVID-19 pandemic will take. Based on the highly dynamic business performance of the first half-year, we are expecting brokerage income from Euro 300 to 310 million and an operating result (EBIT) between Euro 19 and 22 million for the full year 2021. We feel confident that we will report a very good financial year 2021 to you next spring.

Kind regards

Mario Freis

CEO

## **OVB** on the capital market

The benchmark index Dax has so far climbed steadily in the course of the year 2021 without any major setbacks to reach an all-time high for closing prices of 15,791 points on 12 July 2021; this equals a 15.1 per cent gain compared to the prior-year-end level. The stock market profited from the consistently high liquidity and predominantly positive business news.

After the price of the OVB share had moved within in a narrow corridor between Euro 17.40 and Euro 18.40 over the first three months of 2021, the share price performance indicated a considerable upward trend starting in April. In variable trading, the OVB share reached this year's high so far on 14 June at Euro 27.80; the highest closing price was achieved on 8 June at Euro 27. Only 3.01 per cent of the shares of OVB Holding AG are free float so that the trading volume and thus the significance of the share price are closely limited.

The Annual General Meeting of OVB Holding AG for financial year 2020 was held on 9 June 2021 as an online meeting due to the restrictions with respect to COVID-19 and based on recent legislation. All resolution proposals on the agenda, among them a proposal for the payment of a dividend of Euro 0.75 plus a bonus of Euro 0.25 per share on the occasion of the Company's 50-year anniversary, were adopted by the shareholders almost unanimously at a presence of roughly 97 per cent of the registered share capital.

Shareholder structure of OVB Holding AG as of 30/06/2021

## Interim consolidated management report of OVB Holding AG for the period from 1 January to 30 June 2021

#### Course of business

OVB stands for cross-thematic financial advice based on a long-term approach. Private households in Europe are the key target group. The Company cooperates with more than 100 high-capacity product providers and fulfils its clients' individual needs with competitive products, starting at basic protection for financial security as well as asset and financial risk protection, followed by retirement provision, asset generation and wealth management.

OVB is currently active in 15 European countries as an intermediary for financial products. OVB's 5,465 full-time financial agents support 4.05 million clients. The Group's broad European positioning stabilizes its business performance and opens up growth potential. OVB's 15 national markets are different in terms of structure, development status and size. OVB has a leading market position in many countries. The number of senior citizens in Europe rises as the number of young people is going down. Public social security systems are increasingly being overburdened. Therefore OVB continues to see considerable potential for the services it provides.

The cross-thematic advice of clients through all stages of their lives is based on a comprehensive, tried and tested approach: The identification and analysis of each client's financial situation form the basis of counselling. The financial agent particularly asks for the client's wishes and goals and then creates an individually tailored solution in consideration of personal financial resources, a solution with a long-term horizon that is both affordable and sufficiently flexible. OVB accompanies its clients over many years. Service meetings with clients are held on a regular basis in order to consistently adjust our clients' financial planning to their current situation in life. This effort results in protection and provision concepts suited to each client's demands and respective phase of life.

The current COVID-19 pandemic and the corresponding restrictions for in-person client meetings have accelerated the process of creating the technical conditions required for digitally supported advisory service. All of OVB's operating subsidiaries have comprehensive solutions at their disposal for providing video advice and digitally concluding business transactions online.

The professional training of the financial agents, the analysis of client demand and the resulting product

recommendations are based on the general conditions prevailing in the respective market. The continuous advancement of these issues is given great emphasis. OVB is thus capable of an early response to any future regulatory or qualitative requirements.

OVB Group had 672 employees on average over the reporting period (previous year: 643 employees) in the holding company, the head offices of the operating subsidiaries and in the service companies controlling and managing the Group.

#### Macroeconomic environment

OVB operates in 15 European countries divided into three regional segments. OVB's Central and Eastern Europe segment comprises the national markets Croatia, Czechia, Hungary, Poland, Romania, Slovakia and Ukraine; the Group generated roughly 48 per cent of its sales in this segment in the previous year. 23 per cent of OVB Group's sales were accounted for by the German market in the past financial year. The national markets Austria, Belgium, France, Greece, Italy, Spain and Switzerland constitute the Southern and Western Europe segment, contributing some 29 per cent to OVB Group's brokerage income in 2020. With the exception of Switzerland, these countries belong to the eurozone. OVB thus generates roughly three fourths of its brokerage income outside Germany. Against this backdrop it is important to consider the macroeconomic development in Europe for an assessment of the business performance. Among the relevant factors are economic growth, the development of the job market and changes in the income situation of private households.

After a 6.7 per cent drop of the economic output in the eurozone over the year 2020 caused by the COVID-19 pandemic, the OECD predicts an increase in the economic performance of 4.3 per cent for the current year in the euro area, according to a survey of May 2021. The eurozone was affected by the recession more severely than other regions of the world; apart from that, the recovery is taking more time than for example in the United States or Asia. Extensive public support measures have abated the increase in unemployment rates during the crisis. Still, the economic situation in many European countries appears more difficult than two years ago. Southern and Western Europe particularly suffers from the economic

impact of the pandemic. The economic situation of many private households is strained. Europe will likely need several years to recover from the economic effects of the pandemic.

Apart from that, the sale of financial products in Europe continues to face a challenging environment. While borrowers and house builders benefit from the low interest on loans, the persisting low-interest phase creates the challenge for clients willing to take provision measures that many classic investments hardly yield returns anymore. Insurance companies have adapted their product portfolios to the low-interest rate environment. Products with profit participation and guaranteed interest that yield only low returns are hardly offered anymore. Particularly retirement provision based on real property and stocks are at the centre of investor interest now. In demand are direct investments in funds and unit-linked life insurance or pension schemes. Unit-linked pension schemes are especially worth noting for their protective

element in the form of lifelong pension payments. The investment risk attached is curtailed by modern instruments of risk management. Thus investment options remain, making it possible to generate attractive returns for the investors at limited risk. Apart from that, OVB identifies considerable growth for products protecting against biometric risks such as death, invalidity, sickness and care dependency in many countries.

OVB is certain that the demand for cross-thematic, competent and comprehensive personal advice on all kinds of financial matters is increasing: The product offering for private house-holds is almost inscrutable and state support plans are hard to comprehend. In addition to that, financial decisions once made must be routinely reviewed and adapted, if necessary, to changing needs and situations in life. From OVB's vantage, the market for private risk protection and provision therefore offers long-term market potential and sound opportunities for growth despite the currently challenging environment.

#### Business performance

OVB Group's brokerage income amounted to Euro 159.2 million in the period from January through June 2021 altogether. This equals 21.8 per cent growth over the prior-year amount of Euro 130.7 million. All regional segments contributed to this expansion of business activity.

By the end of June 2021 OVB supported 4.05 million clients in 15 countries of Europe (previous year: 3.90 million clients). The total number of financial agents working for OVB gained 7.7 per cent from 5,072 as of the prior-year reporting date to 5,465 financial agents as of 30 June 2021. The structure of the new business has changed only slightly compared to the prior-year period: The share of unit-linked provision products went down from 35.0 per cent in the prior-year period to 33.9 per cent. The share of other provision products increased from 21.6 per cent to 22.0 per cent. While the respective shares of the product categories state-subsidized provision products and investment funds in the new business went up and the weight of health insurance stayed about the same, the shares attributed to property, accident and legal expenses insurance and building society savings contracts / financing went down

#### **Central and Eastern Europe**

Brokerage income of the Central and Eastern Europe segment gained 22.4 per cent to Euro 76.1 million on account of sales increases in all the segment's national markets. The number of financial agents working for OVB went up from 2,964 as of the prior-year reporting date by 7.6 per cent to 3,188 financial agents as of 30 June 2021. OVB's financial agents supported 2.76 million clients (previous year: 2.66 million clients). Unit-linked provision products had the lion's share of new business at 33.0 per cent (previous year: 36.3 per cent), followed by other provision products at 30.9 per cent (previous year: 29.5 per cent).

#### Germany

Brokerage income generated in the Germany segment gained 4.4 per cent to Euro 31.7 million (previous year: Euro 30.4 million). The number of actively supported clients as of 30 June 2021 was 608,544, compared to 611,524 clients one year before. The largest share in the new business was accounted for by unit-linked provision products at 27.4 per cent (previous year: 29.0 per cent). The share in new business made up by products of the category building society savings contracts / financing went down

## Breakdown of new business 1-6/2021 (1-6/2020)

- Unit-linked provision products 33.9% (35.0%)
- State-subsidised provision products 10.1% (9.0%)
- Building society savings contracts/financing 12.2% (12.5%)
- Property, accident and legal expenses insurance 13.7% (14.5%)
- Health insurance 2.1% (2.1%)
- Investment funds 5,9% (5,2%)
- Other provision products 22.0% (21.6%)
- Real property 0.1 % (0.1 %)

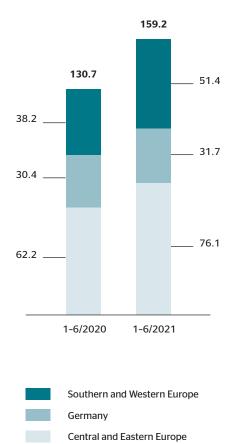

from 18.1 per cent to 16.2 per cent; property, accident and legal expenses insurance products contributed 13.9 per cent to the new business (previous year: 14.7 per cent). The share composed of investment funds went up from 6.6 per cent to 9.9 per cent. With 1,216 financial agents working for OVB in Germany as of 30 June 2021, their number was down 0.7 per cent compared to one year ago (previous year: 1,224 sales agents).

#### Southern and Western Europe

Brokerage income in the Southern and Western Europe segment grew 34.6 per cent to Euro 51.4 million.

Brokerage income was up particularly in Spain, Austria, Italy and Belgium. The number of financial agents rose from 884 by 20.0 per cent to 1,061 agents in support of altogether 680,572 clients in the segment's seven countries, compared to 633,691 clients as of 30 June 2020. The clients' interest focused particularly on unit-linked provision products (39.0 per cent of the new business; previous year: 36.4 per cent), followed by state-subsidized provision products at 26.8 per cent (previous year: 24.3 per cent) and property, accident and legal expenses insurance products with a share of 13.4 per cent (previous year: 16.6 per cent).

#### Brokerage income by region Euro million, figures rounded

#### Profit / Loss

OVB Group generated brokerage income of Euro 159.2 million in the first half-year 2021, equivalent to a 21.8 per cent increase over the income of Euro 130.7 million recorded for the prior-year period of comparison. All three regional segments contributed to this expansive business performance, regarded by OVB as proof of its business model's high stability and resilience and as a major success in view of the ongoing COVID-19 pandemic. Contrary to that, other operating income went down year-on-year from Euro 5.1 million to Euro 4.6 million, accounted for primarily by lower income from the reversal of provisions and the disposal of intangible and tangible assets; reimbursements for seminars and training were down as well.

Brokerage expenses grew largely parallel to brokerage income, from Euro 87.0 million by 23.1 per cent to Euro 107.1 million. Personnel expense for the Group's employees increased by 5.3 per cent from Euro 19.6 million in the prior-year period to Euro 20.6 million in the reporting period. At Euro 3.7 million, depreciation and amortization were slightly above the prior-year level of Euro 3.4 million. Other operating expenses went up 9.3 per cent year-on-year from Euro 18.4 million to Euro 20.1 million. Expenses for IT consulting, seminars and business events and other advisory services were up in particular.

OVB Group generated an operating result (EBIT) of Euro 12.4 million in the first six months of 2021 that is 66.1 per cent or Euro 4.9 million above the prioryear result of Euro 7.5 million.

The EBIT of the Central and Eastern Europe segment grew from Euro 6.0 million by 38.8 per cent to Euro 8.3 million. All the region's operating subsidiaries recorded increases in earnings, spearheaded by the

subsidiaries in Czechia, Romania and Slovakia. The operating result of the Germany segment gained 2.6 per cent from Euro 4.9 million to Euro 5.0 million. The Southern and Western Europe segment's EBIT grew from Euro 1.7 million by 181.3 per cent to Euro 4.7 million; growth drivers were particularly the operating subsidiaries in Spain, Italy, Austria and Belgium. The negative operating result of Corporate Centre including consolidation effects expanded from Euro -5.1 million to Euro -5.6 million year-on-year. OVB Group's EBIT margin based on brokerage income went up from 5.7 per cent in the previous year to 7.8 per cent in the reporting period.

The financial result, indicating a loss of Euro -0.5 million in the previous year, came to Euro 0.1 million in the reporting period. The main reason was lower write-down of securities, having amounted to Euro 1.3 million in the prior-year period. Taxes on income went up from Euro 1.3 million to Euro 2.9 million. After non-controlling interests, consolidated net income thus amounts to Euro 9.6 million. This equals a 74.1 per cent gain on the prior-year amount of Euro 5.5 million. Earnings per share for the first half-year 2021 went up parallel to that from Euro 0.39 as of the prior-year period of comparison to Euro 0.67, based on 14,251,314 ordinary shares respectively.

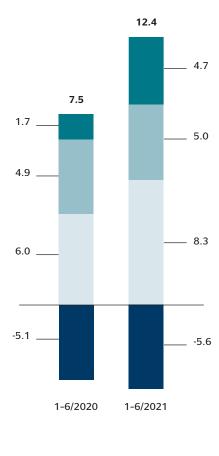

#### Financial position

The cash flow from operating activities recorded an inflow of cash in the amount of Euro 19.5 million from January through June 2021 after Euro 11.1 million in the prior-year period of comparison. Material factors accounting for the Euro 8.4 million increase in cash inflow were improved consolidated earnings before income tax, an increase in provisions and an increase in trade payables and other liabilities.

The cash flow from investing activities recorded cash inflow of Euro 0.8 million; in the previous year there was cash outflow of Euro -1.4 million. Deciding factors for this development were in particular payments from the disposal of securities and other short-term capital investments of Euro 6.6 million (previous year: Euro 1.6 million). Contrary to that, payments for expenditure on securities and other short-term capital investments grew from Euro 1.4 million to Euro 2.6 million and payments for expenditure on non-current tangible assets grew from Euro 0.8 million to Euro 1.5 million most notably.

The cash flow from financing activities showed a higher outflow of funds in the reporting period (Euro -15.7 million) than in the prior-year period (Euro -11.9 million). The deciding factor for this increase is the payment of an anniversary bonus of Euro 0.25 per share on the occasion of 50 years of OVB in addition to the distribution of the regular dividend of Euro 0.75 per share in both time periods. The one-off anniversary bonus resulted in cash outflow of Euro -3.6 million.

## Earnings before interest and taxes (EBIT) by segment Euro million, figures rounded

The Company's cash and cash equivalents in the total amount of Euro 77.1 million as of 30 June 2021 are up Euro 23.8 million from the prior-year amount of Euro 53.3 million.

up from Euro 51.6 million to Euro 54.8 million, essentially due to an expansion of retained cancellation reserve from financial agents. In addition to that, trade payables gained Euro 3.3 million to now Euro 24.4 million.

#### Assets and liabilities

Total assets of OVB Holding AG amounted to Euro 239.9 million as of 30 June 2021. This corresponds to an increase of Euro 6.4 million over the 2020 year-end amount of Euro 233.5 million. Non-current assets increased slightly from Euro 36.5 million by Euro 0.7 million to Euro 37.1 million. Non-current tangible assets, intangible assets and deferred tax assets went up in particular while rights of use of leased objects went down.

Current assets increased by Euro 5.7 million from Euro 197.0 million to Euro 202.8 million. Material factors were an increase in receivables and other assets by Euro 5.9 million to Euro 47.4 million (31 December 2020: Euro 41.6 million) and in cash and cash equivalents by Euro 5.2 million to Euro 77.1 million (31 December 2020: Euro 71.9 million). Contrary to that, securities and other capital investments were down Euro 3.9 million to Euro 42.1 million (31 December 2020: Euro 45.9 million) and trade receivables were reduced by Euro 1.2 million to Euro 35.8 million (31 December 2020: Euro 37.0 million).

The Company's equity went down from Euro 90.0 million as of 31 December 2020 by Euro 4.5 million to Euro 85.5 million as of 30 June 2021. The reason for this was the payment of the dividend plus the anniversary bonus of altogether Euro 14.3 million in June 2021 and the corresponding decrease in retained earnings from Euro 22.5 million to Euro 17.9 million. The equity ratio comes to 35.7 per cent of total assets as compared to 38.5 per cent by year-end 2020. Non-current liabilities went down year-on-year from Euro 13.7 million to Euro 12.5 million. This results in the amount of Euro 0.9 million from a reduction of lease liabilities allocated to "Other liabilities". There are still no liabilities to banks.

Current liabilities went up in line with the expansion of the business volume from Euro 129.8 million by Euro 12.1 million to Euro 141.9 million. Other provisions gained Euro 4.8 million from Euro 55.3 million to Euro 60.1 million, of which Euro 2.1 million were accounted for by an increase in provisions for contractual obligations from subsequent commission. Other liabilities went

#### Subsequent events

Business transactions or events of relevance to an appraisal of OVB Group's profit/loss, financial position and assets and liabilities have not occurred since 30. June 2021.

#### Opportunities and risks

OVB is convinced of doing business in growth markets. Fundamental trends such as the demographic development in Europe require more private provision and risk protection. This scenario continues to provide OVB with opportunities for growing sales and earnings in the future.

Prevailing risks for OVB's business performance are manifold: On the one hand, regionally different restrictions on personal, public and economic life in the course of the ongoing COVID-19 pandemic are still impeding trusting in-person meetings of OVB financial agents and the clients. On the other hand, the economic disruption caused by the COVID-19 pandemic is affecting the income situation of private households. Uncertainty remains with respect to the duration and scope of these burdens and their effects on OVB's business performance. Case notification rates are rising again at present in many European countries despite significantly increased vaccination rates. Due to the uncontrolled spread of the delta variant and potential further mutations to be expected, a significant risk of new lockdowns remains. OVB's financial agents have managed to increase sales despite quarantine measures, contact restrictions and limited freedom of movement. The digital advisory tools provided by OVB contributed largely to this success. Apart from that, OVB's business performance is affected especially by industry risks and financial risks.

OVB's risk management system and the implemented reporting contribute considerably to the transparency of the Group's overall risk position and its control. The risk management and internal control system is updated

on an ongoing basis in order to enhance transparency of the risks taken and to further improve available risk control options.

Opportunities and risks have not changed substantially since the preparation of the 2020 consolidated financial statements. They are described in detail in the 2020 Annual Report, particularly in its chapter "Report on opportunities and risks". From today's perspective, going concern risks arise neither from individual risks nor from OVB Group's overall risk position.

#### Outlook

The effects of the ongoing COVID-19 pandemic on the business performance of OVB Holding AG in the full year 2021 are still subject to uncertainty. Since the beginning of the pandemic in the spring of 2020, however, OVB's

subsidiaries in the Group's current 15 national markets have managed to compensate for the obstacles and burdens caused by the pandemic and affecting business operations and to stabilize the course of business or rather even generate growth by swift utilization of digital communication channels and personal video advice.

In the 2020 consolidated management report, OVB had anticipated for the 2021 financial year that brokerage income would increase slightly compared to the previous year and that the EBIT would show a stable performance. In view of a business performance over the first quarter of 2021 that exceeded expectations, OVB adjusted its forecast in the meantime to predict a significant increase in brokerage income and operating result (EBIT). Based on the very positive sustained development over the first half-year 2021, the Executive Board now anticipates brokerage income from Euro 300 to 310 million and an operating result (EBIT) between Euro 19 and 22 million for the full year 2021.

## IFRS-Interim consolidated financial statements Notes as of 30 June 2021

#### I. General information

#### 1. General information on OVB Group

The condensed interim consolidated financial statements for the first half-year 2021 are released for publication pursuant to Executive Board resolution adopted today.

The parent company of OVB Group (hereinafter referred to as "OVB") is OVB Holding AG, Cologne, recorded in the Commercial Register at the Local Court (Amtsgericht) of Cologne, Reichenspergerplatz 1, 50670 Cologne, under registration number HRB 34649. OVB Holding AG has its registered office at Heumarkt 1, 50667 Cologne.

#### 2. Accounting principles

Pursuant to IAS 34 "Interim Financial Reporting", the condensed interim consolidated financial statements for the first half-year 2021 have been prepared in accordance with the International Financial Reporting Standards (IFRS) and International Accounting Standards (IAS) as adopted by the European Union and released by the International Accounting Standards Board (IASB), and they are intended to be read in conjunction with the consolidated financial statements for the year ended 31 December 2020.

For the preparation of the condensed interim consolidated financial statements, the same accounting policies, measurement and consolidation methods and the same standards have been adopted as were applied for the preparation of the consolidated financial statements for the year ended 31 December 2020 unless otherwise indicated.

The condensed interim consolidated financial statements are prepared in euro. Unless stated otherwise, all figures are rounded up or down to the nearest thousand euros (EUR'000) in accordance with commercial rounding principles. As the figures are presented in thousand euro increments, rounding discrepancies may arise in the individual case when single values are added up. The selected items in the notes are presented without sign with the exception of segment reporting, financial result and income taxes.

In preparing the condensed interim consolidated financial statements pursuant to IAS 34, the Executive Board must make assessments and assumptions and apply estimates that have an effect on the application of accounting policies within the Group and on the disclosure of assets and liabilities as well as income and expenses. Actual amounts may vary from respective estimates made.

Further information on discretionary decisions and estimate uncertainty can be found in chapter 4.4 "Discretionary decisions" in the notes to the consolidated financial statements as of 31 December 2020.

The following new standards are subject to mandatory application in reporting year 2021 for the first time:

#### **IFRS 4 Insurance Contracts (amendments)**

The amendment to IFRS 4 carries the prolongation of the temporary exemption from applying IFRS 9 until 1 January 2023 and is effective as of 1 January 2021. No material effects on the consolidated financial statements result from this.

#### Interest rate benchmark reform - phase 2

In its phase 2 adopted on 27 August 2020, the interest rate benchmark reform encompasses further amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 concerning the accounting treatment of hedges (hedge accounting). Amendments are effective as of 1 January 2021. No material effects on the consolidated financial statements result from these amendments.

The following new standards are subject to mandatory adoption in later reporting periods:

#### IAS 16 Property, Plant and Equipment (amendments)

The amendment addresses the previously permissible deduction of proceeds from the sale of items produced from the cost of any such item before bringing it to the condition required for its intended operation. Proceeds must be recognized in profit or loss upon the amendment's entry into force as of 1 January 2022. Application will not result in material effects on the consolidated financial statements.

#### IAS 37 Provisions, Contingent Liabilities and Contingent Assets (amendments)

The amendment to IAS 37 addresses the assignment and entry of the cost of fulfilling a contract, meant to help in the assessment whether there are onerous contracts deviating from the standard the entity has established. Amendments are effective as of 1 January 2022. Application will not result in material effects on the consolidated financial statements.

#### **IFRS 3 Business Combinations (amendments)**

The standard's references have been aligned with the conceptual framework 2018 and amendments on the application of IAS 37 and IFRIC 21 as well as the non-recognition of contingent assets upon acquisition have been added. Amendments are effective as of 1 January 2022. No material effects on the consolidated financial statements will result from these amendments.

#### Improvements to IFRS

Within the framework of its project intended to introduce minor improvements to standards and interpretations (Annual Improvements Process), the IASB has released its most recent collection of "Annual Improvements to IFRSs 2018 - 2020 Cycle", resulting in minor amendments to four standards altogether. These amendments address IAS 41, IFRS 1, IFRS 9 and IFRS 16 and are effective as of 1 January 2022. No material effects on the consolidated financial statements will result from these amendments.

The following standards have been finalized by the IASB but will be applicable in later reporting periods subject to pending EU endorsement:

#### IFRS 16 Leases (amendments)

In view of the coronavirus pandemic, the IASB released an amendment in May 2020 facilitating the assessment of rent concessions as lease modifications. If lease payments are deferred or waived by the lessor due to the coronavirus crisis, the lessee is permitted to make use of this facilitation and account for the corresponding leases regardless of any modification. This facilitation was initially limited to rent concessions whose reduction regarded payments due on or before 30 June 2021. The period of application has now been extended to 30 June 2022 and requirements for implementation and presentation of the facilitation have been newly defined. Amendments would generally be effective as of 1 April 2021; however, the endorsement procedure is still pending. OVB has not drawn on any rent concessions linked to the coronavirus pandemic and therefore there will be no effects on the consolidated financial statements.

#### IAS 1 Presentation of Financial Statements (amendments)

The standard will clarify the classification of liabilities as current or non-current liabilities in its future version. The amendment is effective as of 1 January 2023. No material effects on the consolidated financial statements will result from this amendment.

#### IAS 1 Presentation of Financial Statements & IFRS Practice Statement 2 (amendments)

The amendments to IAS 1 and IFRS Practice Statement 2 define the obligation to disclose material accounting policy information and specify the identification and presentation of material accounting policy information. Amendments are effective as of 1 January 2023, application ahead of schedule is permitted. No material effects on the consolidated financial statements will result from these amendments.

#### IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors (amendments)

Amendments to IAS 8 concern the definition of accounting estimates as monetary amounts in financial statements subject to measurement uncertainty. Changes in accounting estimates based on new information or new developments including their effects are not deemed corrections of errors made in previous reporting periods. Amendments are effective as of 1 January 2023, application ahead of schedule is permitted. No material effects on the consolidated financial statements will result from these amendments.

#### IAS 12 Income Taxes (amendments)

The IASB has released a clarification regarding deferred tax on transactions of e.g. leases and decommissioning obligations, principally introducing another exemption from the "initial recognition exemption". In the future deferred tax assets and liabilities have to be recognized for transactions whose initial recognition results in equal amounts of deductible and taxable temporary differences. Amendments are effective as of 1 January 2023, application ahead of schedule is permitted. No material effects on the consolidated financial statements will result from these amendments.

#### **IFRS 17 Insurance Contracts**

The introduction of new standard IFRS 17 will govern the basic principles for recognition, measurement, presentation and disclosure of insurance contracts, superseding IFRS 4 upon its entry into force. It aims for a better presentation of insurance contracts in the statement of financial position for the reader of financial statements, enabling him or her to evaluate the effects on the reporting entity's assets and liabilities, financial position and profit/loss as well as its cash flows. The new standard is effective as of 1 January 2023. It will have no material effects on the consolidated financial statements

#### 2.1 Financial instruments

Financial assets and liabilities are recognized in the consolidated statement of financial position as of the date when an entity of OVB Group becomes a contracting party with respect to the contractual provisions of the respective financial instrument. Recognition thus takes place as of the settlement date.

Classification according to measurement categories is based on the identification of the business model under which contractual cash flows are collected as well as on an assessment of the terms of the cash flows by way of the SPPI test (Solely Payment of Principal and Interest). OVB Group's financial instruments can be classified as follows:

#### Amortized cost (AC)

Financial instruments measured at amortized cost (business model: hold; cash flow conditions compliant) are recognized at fair value upon addition. Insofar as future impairment is anticipated, it is considered for measurement unless immaterial. No-interest or low-interest bearing financial instruments with terms of more than one year are measured at present value. Subsequent to first-time recognition, such financial instruments are measured at amortized cost. That is the amount at which a financial asset was valuated upon first-time recognition less repayments, plus or less the cumulative amortization of any difference between the originally assigned value and the amount repayable upon final maturity based on the effective interest method, and less any valuation allowances for expected credit loss.

#### Fair Value through Profit or Loss (FVPL)

Financial instruments measured at fair value through profit or loss (business model: either not hold or cash flow conditions not compliant) are recognized at fair value upon addition. Gains or losses resulting from subsequent measurement are to be recognized through profit or loss in the income statement.

#### Fair Value through Other Comprehensive Income (FVOCI)

Debt instruments (business model: hold and sale; cash flow conditions compliant) and equity instruments (by designation) measured at fair value outside profit or loss are recognized at fair value upon addition. Gains or losses

resulting from subsequent measurement are to be recognized in equity outside profit or loss. Upon the disposal of debt instruments, gains or losses included in revaluation reserve are to be recognized in the income statement. With respect to equity instruments there is no reclassification of the revaluation reserve through profit or loss but rather within equity outside profit or loss. Interest income, valuation allowances and exchange rate gains are recognized in the income statement through profit or loss.

#### 2.2 Impairment and reversal of impairment loss of financial assets

As of each reporting date, expected credit losses are considered for valuation allowances for financial assets/contract assets measured at amortized cost. Present values of classical default scenarios are multiplied by the corresponding probability of occurrence. The initial effective interest rate is applied for discounting.

#### Stage transfer

Upon first-time assessment of future credit loss, impairment equals expected credit losses within the next twelve months. If a significant increase in credit risk compared to the initial assessment materializes at a later reporting date, impairment equals expected credit losses over the entire remaining term of the asset.

#### Simplified approach

For trade receivables without a significant financing component, expected credit losses are determined collectively for a group of assets with the same credit risk characteristics and recognized as a risk provision item over the asset term pursuant to IFRS 9.5.5.15.

#### 2.3 Recognition of sales

OVB generally recognizes sales at the time the agreed performances have been provided to the client (satisfaction of performance obligation). In case of uncertainty with respect to the recognition of sales, the date of actual cash inflow is taken into account. In the event that commissions are refunded to a product partner when contracts are cancelled or in the event of non-payment, provisions are made on the basis of historical figures (provisions for cancellation risk). Changes in provisions for cancellation risk are recognized on account of sales. Considering potential refunds of commissions already received in case of cancellation, sales represent variable consideration for the purpose of IFRS 15 due to the element of uncertainty in the amounts of revenue.

Sales from subsequent commission are recognized as so-called contract asset under "Receivables and other assets". Subsequent commission is estimated on the basis of the most probable amount at which a significant cancellation of recorded sales is deemed highly improbable. Corresponding brokerage expenses to be handed on to the sales force are included in provisions from subsequent commission.

OVB recognizes new business commission, policy service commission and dynamic commission as sales.

OVB is paid new business commission for the successful brokerage of an insurance policy. Settlement follows either a discounted, partly discounted or pro-rata approach. With respect to partly discounted and pro-rata new business commission received in the categories unit-linked provision products, other provision products, property, legal expenses and accidence insurance, investment funds and health insurance, sales are recognized at an earlier point in time for the sales portion attributable to the successful brokerage of the contract yet settled only in later reporting periods; in doing that, assumptions are made with respect to the probable term in consideration of future contract cancellations.

OVB is paid policy service commission for the policyholder's continuous support. The performance is thus rendered over a certain period of time so that sales are to be realized over that time period accordingly.

OVB is paid dynamic commission for premium raises over the contract term. Dynamic commission is recognized as of the point in time the policyholder's withdrawal period with respect to the premium raise has expired.

#### 3. Changes to the scope of consolidation

A business combination is the effect of OVB assuming control over one or more entities by transaction or another business event. For any case of business combinations, the acquisition method is to be applied. Acquisition cost of an acquired subsidiary is measured according to the fair value of the transferred consideration, i.e. the total of transferred assets, assumed liabilities, issued equity instruments and contingent consideration. Incidental transaction costs are generally recognized as expense. Recognizable assets and assumed liabilities as well as contingent liabilities are measured at fair value to the full amount regardless of the amount of OVB's investment. Applicable are the respective values as of the time control over the subsidiary was assumed. The measurement of any goodwill is determined by the positive difference between the acquisition's transaction cost less the fair value of the acquired net assets.

There were no changes to the scope of consolidation in the first half-year 2021.

#### II. Significant events in the interim reporting period

The reporting period was affected by the coronavirus pandemic.

Due to uncertainty caused by the coronavirus crisis, precautionary measures taken already by OVB in financial year 2020 were continued unchanged as of 31 December 2020. For this reason effects from the coronavirus pandemic on individual items in the statement of financial position remain for OVB as of the reporting date, particularly on the measurement of receivables from financial agents, the measurement of the contract asset according to IFRS 15, the assessment of the future cancellation patterns of policyholders and the corresponding evaluation of provisions for cancellation risk as well as the measurement of financial instruments. The ongoing development of the coronavirus pandemic did not have any material effects on the aforementioned statement of financial position items through profit or loss in the first half-year 2021.

#### Cancellation risk

Management adheres to its estimate made on 31 December 2020 as of 30 June 2021. Due to the sales performance, precautionary measures increased in volume from EUR 3.9 million to EUR 4.2 million. Provisions for cancellation risk amount to EUR 22.0 million as of the reporting date.

#### Contract asset

The contract asset and provisions from subsequent commission (IFRS 15) are affected by the continued precautionary measures in the net amount of EUR 0.6 million as of 30 June 2021 (31 December 2020: EUR 0.5 million).

#### Receivables from financial agents

The expected higher probability of default has an effect on valuation allowances for receivables from financial agents in the amount of EUR 0.4 million as of the reporting date (31 December 2020: EUR 0.4 million).

Further significant reportable events pursuant to IAS 34 (e.g. exceptional business transactions, launch of restructuring measures or discontinuation of operations) did not occur.

## III. Notes to the statement of financial position and the statement of cash flows

#### 1. Financial assets

AC = Amortized Cost

EUR'000	30/06/2021	31/12/2020
Financial assets AC	489	449

Financial assets indicate loans granted to employees and self-employed sales agents with terms of more than one year, issued at customary interest rates.

#### 2. Receivables and other assets

EUR'000	30/06/2021	31/12/2020
Receivables	20,242	18,889
Other assets	4,410	2,968
Contract asset (IFRS 15)	22,768	19,711
	47,420	41,568

#### 3. Securities and other capital investments

EUR'000	30/06/2021	31/12/2020
Securities FVPL	26,659	24,456
Securities FVOCI	5,795	6,320
Other capital investments AC	9,628	15,171
	42,082	45,947

AC = Amortized Cost / FVPL = Fair Value through Profit or Loss / FVOCI = Fair Value through Other Comprehensive Income

#### 4. Cash and cash equivalents

Cash and cash equivalents can be broken down for the consolidated statement of cash flows as follows:

EUR'000	30/06/2021	31/12/2020
Cash	18	24
Cash equivalents	77,073	71,903
	77.091	71.927

Cash includes the group companies' cash in hand in domestic and foreign currencies translated into euros as of the quarter closing date.

Cash equivalents are assets that can be converted into cash immediately. Cash equivalents include bank balances in domestic and foreign currencies with maturities of three months or less, checks and stamps. Measurement is based on amortized cost; foreign currencies are measured in euros as of the closing date.

#### 5. Share capital

Unchanged from 31 December 2020, the subscribed capital (share capital) of OVB Holding AG amounts to EUR 14,251,314.00. It is divided into 14,251,314 no-par ordinary bearer shares.

#### 6. Dividend

Distributable amounts relate to the retained earnings of OVB Holding AG as determined in compliance with German commercial law.

The Executive Board of OVB Holding AG proposed that a dividend be paid in the amount of EUR 0.75 per share and agreed with the Supervisory Board at its meeting on 17 March 2021 on the distribution of an additional one-off anniversary bonus in the amount of EUR 0.25 per share.

The resolution on the appropriation of retained earnings of OVB Holding AG for financial year 2020 was adopted by the Annual General Meeting held on 9 June 2021.

On 10 June 2021 a dividend in the amount of EUR 14,251 thousand was distributed to the shareholders, equivalent to EUR 1.00 per no-par share (previous year: EUR 0.75 per no-par share):

EUR'000	2020	2019
Distribution to shareholders	14,251	10,688
Profit carry-forward	4,807	8,495
Retained earnings	19,058	19,183

#### 7. Treasury shares

OVB Holding AG did not hold any treasury shares as of the reporting date. In the period between the quarter closing date and the preparation of the interim consolidated financial statements, no transactions involving the Company's ordinary shares or options to its ordinary shares took place.

At the Annual General Meeting of OVB Holding AG held on 10 June 2020, shareholders authorized the Executive Board, subject to the Supervisory Board's consent, to acquire up to 300,000 of the Company's bearer shares in the period from 11 June 2020 up to and including 9 June 2025, in one or several transactions. Shares acquired on the basis of this resolution may also be retired.

#### 8. Other provisions

EUR'000	30/06/2021	31/12/2020
1. Cancellation risk	22,046	20,393
2. Unbilled liabilities	18,750	17,199
3. Litigation	716	701
4. Provisions from subsequent commission (IFRS 15)	14,849	12,776
	56,361	51,069
5. Miscellaneous		
- Obligations to employees	1,696	1,848
- Costs for financial statements / Audit cost	539	697
- Other obligations	1,534	1,684
	3,769	4,229
	60,130	55,298

#### 1. Cancellation risk

Cancellation risk primarily includes provisions for expected commission refunds claimed by product partners.

#### 2. Unbilled liabilities

Unbilled liabilities primarily include commission not yet billed by financial agents.

#### 3. Litigation

Provisions are made for litigation primarily due to legal disputes with clients and former financial agents. It is uncertain when such legal disputes will end and what exact amount the corresponding outflow of economic benefits will come to.

#### 4. Provisions from subsequent commission

Provisions from subsequent commission are made for commission not yet passed on to the sales force.

#### 5. Miscellaneous

Miscellaneous provisions encompass all provisions not to be categorized under any of the sub-items above.

#### 9. Other non-current liabilities

EUR'000	30/06/2021	31/12/2020
1. Non-current lease liabilities	10,066	11,010
2. Miscellaneous liabilities	0	400
	10.066	11.410

#### 1. Non-current lease liabilities

Non-current lease liabilities result from the application of IFRS 16.

#### 2. Miscellaneous liabilities

Miscellaneous liabilities encompass all liabilities not to be categorized under the above sub-items. As of 31 December 2020, this item exclusively contained the final outstanding purchase price payment from the acquisition of the Belgian subsidiary in the amount of EUR 400 thousand, reported under "Other current liabilities" as of 30 June 2021.

#### 10. Other current liabilities

EUR'000	30/06/2021	31/12/2020
1. Retained security	46,239	42,789
2. Other tax liabilities	1,617	1,316
3. Liabilities to employees	2,764	2,878
4. Liabilities to product partners	774	1,256
5. Other liabilities to sales agents	21	40
6. Current lease liabilities	2,239	2,308
7. Miscellaneous liabilities	1,137	975
	54,791	51,562

#### 1. Retained security

Retained security includes provisions for cancellation risk set aside on account of financial advisors. Amounts are retained in order to cover anticipated commission refund claims.

#### 2. Other tax liabilities

Tax liabilities only include other actual tax liabilities that can be exactly determined or that have already been assessed.

#### 3. Liabilities to employees

Payments due to employees in the short term for work performed such as holiday pay, bonuses or premiums as well as benefits paid to employees due to the termination of employment are recognized at expected settlement amounts.

#### 4. Liabilities to product partners

Liabilities to product partners that are not affiliates generally result from the reversal of commission entries and are paid by OVB as they arise over the course of business. These liabilities are measured at face value.

#### 5. Other liabilities to sales agents

Current liabilities to the sales force that do not result from brokerage services are recognized as "Other liabilities to sales agents".

#### 6. Current lease liabilities

Current lease liabilities result from the application of IFRS 16.

#### 7. Miscellaneous liabilities

Miscellaneous liabilities comprise all liabilities that are not attributable to any of the above sub-items. This item essentially includes liabilities from social security contributions and deferred income as well as the final outstanding purchase price payment from the acquisition of the Belgian subsidiary in the amount of EUR 400 thousand as of 30 June 2021.

.

#### IV. Notes to the income statement

#### 1. Brokerage income

EUR'000	01/01 - 30/06/2021	01/01 - 30/06/2020
1. New business commission	125,924	98,669
2. Policy service commission	25,285	24,681
3. Dynamic commission	2,869	2,723
4. Other brokerage income	5,124	4,640
	159,202	130.713

#### 1. New business commission

New business commission results from the successful brokerage of various financial products.

#### 2. Policy service commission

Policy service commission results from the policyholder's continuous support and is collected after rendering respective services.

#### 3. Dynamic commission

Dynamic commission results from increases to contributions under contract during the contract term.

#### 4. Other brokerage income

Other brokerage income encompasses income from brokerage as a result of bonus payments and other sales related payments made by product partners as well as changes in cancellation risk provisions.

Brokerage income includes income from subsequent commission in the amount of EUR 2,951 thousand (30 June 2020: EUR 2,407 thousand) as a result of earlier capitalization of partly discounted and pro-rata new business commission.

#### 2. Other operating income

Other operating income essentially includes refunds paid by financial advisors for workshop participation, reversals of provisions, reimbursements of costs paid by sales force and partner companies, income from statute-barred liabilities and all other operating income not to be recorded as brokerage income.

EUR'000	01/01 - 30/06/2021	01/01 - 30/06/2020
Other operating income	4,628	5,102

#### 3. Brokerage expenses

Brokerage expenses include all direct payments to financial advisors. Current commission encompasses all directly performance-based commission, i.e. new business commission, policy service commission and dynamic commission. Other commission includes all other commission linked to a specific purpose, e.g. other incentive remuneration.

EUR'000	01/01 - 30/06/2021	01/01 - 30/06/2020
Current commission	97,029	79,461
Other commission	10,029	7,528
	107 058	86 989

#### 4. Personnel expense

EUR'000	01/01 - 30/06/2021	01/01 - 30/06/2020
Wages and salaries	16,994	16,185
Social security	3,420	3,190
Pension plan expenses	216	220
	20,630	19,595

#### 5. Depreciation and amortization

EUR'000	01/01 - 30/06/2021	01/01 - 30/06/2020
Amortization of intangible assets	1,690	1,575
Depreciation of rights of use	1,252	1,170
Depreciation of property, plant and equipment	739	661
	3,681	3,406

#### 6. Other operating expenses

EUR'000	01/01 - 30/06/2021	01/01 - 30/06/2020
Sales and marketing expenses	6,629	6,502
Administrative expenses	11,299	9,535
Non-income-based tax	1,916	1,950
Miscellaneous operating expenses	221	373
	20,065	18,360

#### 7. Financial result

EUR'000	01/01 - 30/06/2021	01/01 - 30/06/2020
Finance income		
Interest income and similar income	98	160
Income from securities	85	86
Reversal of impairment loss on capital investments	219	691
	402	937
Finance expense		
Interest expense and similar expenses	-197	-170
Expenses for capital investments	-84	-1,305
	-281	-1,475
Financial result	121	-538

#### 8. Taxes on income

Actual and deferred tax are determined on the basis of the income tax rates applicable in the respective countries. Actual income taxes were recognized on the basis of the best estimate of the weighted average of the annual income tax rate expected for the full year. Deferred taxes were calculated on the basis of the expected applicable future tax rate.

The main components of income tax expense are the following items as reported in the consolidated income statement:

EUR'000	01/01 - 30/06/2021	01/01 - 30/06/2020
Actual income tax	3,122	1,648
Deferred income tax	-270	-313
	2.852	1.335

#### 9. Earnings per share

The calculation of basic / diluted earnings per share is based on the following data:

EUR'000	01/01 - 30/06/2021	01/01 - 30/06/2020
Net income for the reporting period after non-controlling interests		
Basis for basic/diluted earnings per share (net income for the reporting period attributable to owners of the parent)	9,564	5,494
Number of shares		
Weighted average number of shares for the calculation of basic/diluted earnings per share	14,251,314	14,251,314
Basic/Diluted earnings per share in EUR	0.67	0.39

### V. Notes on segment reporting

The principal business activity of OVB's operating subsidiaries consists of advising clients in managing and structuring their finances and broking various financial products offered by insurance companies, banks, building societies and other enterprises in this context. It is not feasible to break down the services provided to clients by product type. Within the consolidated companies there are no identifiable and distinctive key sub-activities at group level. In particular it is not possible to present assets and liabilities based on the brokered products. Therefore the individual companies are each categorized as single-product companies. Consequently segment reporting is based exclusively on geographic aspects as corporate governance and internal reporting to group management are also structured solely according to these criteria. In this regard, the operating subsidiaries represent operating segments for the purpose of IFRS 8, aggregated in three reportable segments. All entities not involved in brokerage service operations represent the "Corporate Centre" segment. For this categorization, the criteria for aggregation defined by IFRS 8.12 have been complied with. Internal reporting to the Company's management is a condensed presentation of the income statement, compliant with IFRS, presented more elaborately in segment reporting. The companies' earnings are monitored separately by the Company's management in order to measure and assess profitability. Segment assets and segment liabilities are not disclosed in the presentation of segment reporting compliant with IFRS 8.23 as such disclosure is not part of internal reporting.

The "Central and Eastern Europe" segment includes: OVB Vermögensberatung A.P.K. Kft., Budapest; OVB Allfinanz a.s., Prague; OVB Allfinanz Slovensko a.s., Bratislava; OVB Allfinanz Polska Społka Finansowa Sp. z o.o., Warsaw; OVB Allfinanz Romania Broker de Asigurare S.R.L., Cluj; OVB Imofinanz S.R.L., Cluj; OVB Allfinanz Croatia d.o.o., Zagreb; OVB Allfinanz Zastupanje d.o.o., Zagreb, and TOB OVB Allfinanz Ukraine, Kiev. Material contributions to the brokerage income of the Central and Eastern Europe segment are generated by OVB Allfinanz a.s., Prague, at EUR 22,791 thousand (30 June 2020: EUR 15,270 thousand) and OVB Allfinanz Slovensko a.s., Bratislava, at EUR 21,522 thousand (30 June 2020: EUR 20,520 thousand).

The "Germany" segment comprises OVB Vermögensberatung AG, Cologne; Advesto GmbH, Cologne, and Eurenta Holding GmbH, Cologne. In this segment brokerage income is primarily generated by OVB Vermögensberatung AG, Cologne.

The "Southern and Western Europe" segment includes the following companies: OVB Allfinanzvermittlungs GmbH, Wals near Salzburg; OVB Vermögensberatung (Schweiz) AG, Hünenberg; OVB-Consulenza Patrimoniale SRL, Verona; OVB Allfinanz España S.A., Madrid; OVB (Hellas) Allfinanz Vermittlungs GmbH & Co. KG, Bankprodukte, Athens; OVB Hellas Allfinanzvermittlungs GmbH, Athens; OVB Conseils en patrimoine France Sàrl., Strasbourg; Eurenta Hellas Monoprosopi EPE Asfalistiki Praktores, Athens; Willemot Bijzonder Verzekeringsbestuur NV, Gent, and Verzekeringskantoor Louis Vanheule BVBA, Dendermonde.

The "Corporate Centre" segment includes OVB Holding AG, Cologne; Nord-Soft EDV-Unternehmensberatung GmbH, Horst; Nord-Soft Datenservice GmbH, Horst, and OVB Informatikai Kft., Budapest. In the period of comparison, OVB SW Services s.r.o., Prague, was included as well, wound up as of 9 September 2020. The entities of the Corporate Centre segment are not involved in the brokerage of financial products but primarily concerned with providing services to OVB Group. The range of services comprises particularly management and consulting services, software and IT services as well as marketing services.

The separate segments are presented in segment reporting after the elimination of inter-segment interim results and consolidation of expense and income. Intra-group dividend distributions are not taken into account. Reconciliations of segment values to corresponding consolidated data are made directly in the consolidation column in segment reporting. Recognition, disclosure and measurement of the consolidated values in segment reporting correspond to the values presented in the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of cash flows and the consolidated statement of changes in equity. For intra-group allocations, an appropriate additional overhead charge is levied on the individual cost items incurred.

## Segment reporting

of OVB Holding AG for the period from 1 January to 30 June 2021 according to IFRS

## VI. Other disclosures relating to the interim consolidated financial statements

#### 1. Leases

Rights of use of leased objects amount to EUR 11,873 thousand as of 30 June 2021. Corresponding lease liabilities altogether amount to EUR 12,305 thousand and are classified in the statement of financial position according to maturity as either non-current (EUR 10,066 thousand / 31 December 2020: EUR 11,010 thousand) or current liabilities (EUR 2,239 thousand / 31 December 2020: EUR 2,308 thousand), entered under the item "Other liabilities" respectively.

Lease agreements entered into by OVB essentially involve real property, vehicles and office equipment.

The development of rights of use divided into categories of underlying assets is as follows:

EUR'000	01/01/2021	Additions	Disposals	Depreciation	Exchange rate differences	30/06/2021
Tangible assets						
- Land and buildings	11,993	50	0	-1,013	51	11,081
- Machinery, equipment, furniture, vehicles, others	836	156	-3	-225	1	765
- IT equipment	41	0	0	-14	0	27
	12,870	206	-3	-1,252	52	11,873

Interest expense from accrued interest on lease liabilities amounts to EUR 157 thousand (30 June 2020: EUR 135 thousand) and is disclosed under "Other finance expenses".

The expense for short-term leases with terms of less than twelve months comes to EUR 3 thousand (30 June 2020: EUR 30 thousand) and is disclosed under "Other operating expenses".

The expense for leases of low-value assets comes to EUR 13 thousand (30 June 2020: EUR 14 thousand) and is disclosed under "Other operating expenses".

Maturities of not discounted lease liabilities are as follows:

	Less than					More than	
EUR'000	3 months	3-6 months	6-12 months	1-3 years	3-5 years	5 years	Total
	630	626	1,201	3,612	2,586	4,709	13,364

Income in the amount of EUR 23 thousand (30 June 2020: EUR 9 thousand) was generated from sub-leases.

Maturities of expected lease payments from sub-leases are as follows:

					More than			
EUR'000	1 year	2 years	3 years	4 years	5 years	5 years	Total	
	49	26	16	16	16	0	123	

There are no contract renewal options as of 30 June 2021 from whose probable exercise cash outflow would result for the next reporting periods.

#### 2. Contingent liabilities

OVB Holding AG and some of its subsidiaries have given guarantees and assumed liabilities on behalf of financial agents in the ordinary course of business. The associated risks are recognized in "Other provisions" to the extent they give rise to obligations whose values can be reliably estimated. Material changes in comparison with 31 December 2020 have not occurred.

Some group companies are currently involved in various legal disputes arising from the ordinary course of business, primarily in connection with the settlement of accounts for brokerage services provided by financial agents.

Management holds the view that adequate provisions have been made for contingent liabilities arising from such guarantees, the assumption of liabilities and legal disputes and that such contingencies will not have any material effect on the Group's financial position, assets and liabilities and profit/loss beyond that.

OVB's brokerage business carries the inherent risk that working together with self-employed financial agents might be interpreted by tax authorities or social security agencies as an employment relationship, resulting in OVB's payment of taxes and social security contributions. OVB has a constant focus on this risk but cannot rule out completely due to possible changes to national legal frameworks that subsequent claims against OVB might arise. Without OVB being engaged in any notable litigation at present in this respect, from today's viewpoint retrospective payments of taxes and social security contributions of up to EUR 4.8 million might result for one of the operating subsidiaries. Based on legal expert opinions at hand, management deems corresponding liabilities for OVB improbable.

#### 3. Employees

As of 30 June 2021 OVB Group has a commercial staff of altogether 672 employees on average (31 December 2020: 650), 57 thereof in managerial positions (31 December 2020: 54).

#### 4. Related party disclosures

OVB has concluded agreements covering the brokerage of financial products with related parties belonging to SIGNAL IDUNA Group, Baloise Group and Generali Group.

Principal shareholders as of 30 June 2021 are entities of

- SIGNAL IDUNA Group,
- Baloise Group and
- Generali Group.

SIGNAL IDUNA Group is a horizontally organized group of companies ("Gleichordnungsvertragskonzern"). The group's parent companies are:

- SIGNAL IDUNA Krankenversicherung a. G., Dortmund
- SIGNAL IDUNA Lebensversicherung a. G., Hamburg
- SIGNAL IDUNA Unfallversicherung a. G., Dortmund

As of 30 June 2021 SIGNAL IDUNA Lebensversicherung a. G., Hamburg, held shares in OVB Holding AG carrying 31.67 per cent of the voting rights. As of 30 June 2021 SIGNAL IDUNA Krankenversicherung a. G., Dortmund, held shares in OVB Holding AG carrying 21.27 per cent of the voting rights. Based on agreements concluded with entities of SIGNAL IDUNA Group, sales in the amount of EUR 13,733 thousand (30 June 2020: EUR 13,950 thousand) were generated in the first half-year 2021. Receivables exist in the amount of EUR 3,691 thousand (31 December 2020: EUR 3,549 thousand).

The item "Securities and other capital investments" includes securities issued by SIGNAL IDUNA Group in the amount of EUR 7,427 thousand (31 December 2020: EUR 7,461 thousand).

## **Review report**

To OVB Holding AG, Cologne

We have reviewed the condensed consolidated interim financial statements - comprising the consolidated statement of financial position, consolidated income statement and consolidated statement of comprehensive income, consolidated statement of changes in equity, consolidated statement of cash flows and selected explanatory notes - and the interim group management report of OVB Holding AG, Cologne, for the period from 1 January to 30 June 2021 which are part of the halfyear financial report pursuant to § (Article) 115 WpHG ("Wertpapierhandelsgesetz": German Securities Trading Act). The preparation of the condensed consolidated interim financial statements in accordance with the IFRS applicable to interim financial reporting as adopted by the EU and of the interim group management report in accordance with the provisions of the German Securities Trading Act applicable to interim group management reports is the responsibility of the parent Company's Board of Managing Directors. Our responsibility is to issue a review report on the condensed consolidated interim financial statements and on the interim group management report based on our review.

We conducted our review of the condensed consolidated interim financial statements and the interim group management report in accordance with German generally accepted standards for the review of financial statements promulgated by the Institut der Wirtschaftsprüfer (Institute of Public Auditors in Germany) (IDW). Those standards require that we plan and perform the review so that we can preclude through critical evaluation, with moderate assurance, that the condensed consolidated interim financial statements have not been prepared, in all mate-

rial respects, in accordance with the IFRS applicable to interim financial reporting as adopted by the EU and that the interim group management report has not been prepared, in all material respects, in accordance with the provisions of the German Securities Trading Act applicable to interim group management reports. A review is limited primarily to inquiries of company personnel and analytical procedures and therefore does not provide the assurance attainable in a financial statement audit. Since, in accordance with our engagement, we have not performed a financial statement audit, we cannot express an audit opinion.

Based on our review, no matters have come to our attention that cause us to presume that the condensed consolidated interim financial statements have not been prepared, in all material respects, in accordance with the IFRS applicable to interim financial reporting as adopted by the EU nor that the interim group management report has not been prepared, in all material respects, in accordance with the provisions of the German Securities Trading Act applicable to interim group management reports.
